

AI WITHOUT FEAR

Pre-Workshop Questionnaire

Where am I starting?

This is not a test. There are no right or wrong answers. We are using your responses to understand what people already think, feel and want to understand about AI before the workshop begins.

Please complete this in about 5 minutes.

1. Your relationship with AI

How often do you currently use AI tools?

☐ Never ☐ Rarely ☐ Occasionally ☐ Several times a week ☐ Daily

2. What do you currently use AI for?

Select all that apply.

- ☐ Search / finding information ☐ Writing / editing ☐ Translation
- ☐ Learning / education ☐ Coding / technical work ☐ Images / creative work
- ☐ Work / business ☐ Personal tasks ☐ Entertainment
- ☐ I don't currently use AI ☐ Other: _____

3. What is your biggest feeling about AI?

Choose up to three.

- ☐ Curious ☐ Excited ☐ Hopeful ☐ Confused
- ☐ Indifferent ☐ Cautious ☐ Concerned ☐ Frightened
- ☐ Overwhelmed ☐ Skeptical ☐ Optimistic ☐ Other: _____

4. What concerns you most?

Choose up to three.

- ☐ Job loss ☐ Privacy ☐ Misinformation / deepfakes
- ☐ Bias / discrimination ☐ Children and education ☐ Loss of human creativity
- ☐ Companies having too much power ☐ Government surveillance
- ☐ AI making important decisions ☐ AI becoming autonomous
- ☐ AI becoming uncontrollable ☐ Human extinction / catastrophic risk
- ☐ I don't have significant concerns ☐ Other: _____

5. What do you genuinely want to understand?

What is one thing about AI that you genuinely want to understand better today?

6. Which statement is closest to your current view?

Choose one.

- ☐ **A.** AI is mostly overhyped and people are unnecessarily afraid.
- ☐ **B.** AI is mostly beneficial, although there are some risks.
- ☐ **C.** AI has significant risks that we should take very seriously.
- ☐ **D.** AI could eventually become an existential threat to humanity.
- ☐ **E.** I don't know enough to have a view.
- ☐ **F.** My view is somewhere else: _____

Facilitator use

Collect this page or ask participants to keep it closed until the end. Repeat Question 6 after the workshop and use the reflection questions below to help participants notice what changed in their thinking.

After the workshop — reflection

At the beginning I thought:

Now I think:

Something I was worried about that I understand better now:

Something I still don't know:

One thing I will do differently when using AI:

“I don't need to fear AI blindly because I can...”

LEARN. TEST. VERIFY. DECIDE.
